

THE WILD - an exhibition by MARK WILLIAMS

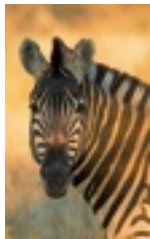

Campbelltown Public Library Gallery
171 Montacute Road, Newton

JUNE 2011
(during library opening hours)

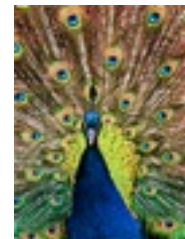

*Come and see **The Wild** exhibition - a dynamic collection
of exciting **Wildlife Portraits***

About the work

*Slightly more than your standard nature shot, **The Wild** collection focuses on Wildlife Portraiture and, by doing so, highlights that beautiful "connection" between "us" and the natural world.*

Some images in the collection go a step further; turning nature into art; capturing the essence of the world through unique and eye catching mandalas, patterns and design.

About the artist

Mark Williams has been deeply interested in the natural world and photography for over 10 years, with his work appearing in numerous magazines, Royal Shows and exhibition events. His intention is to express, through art, man's strong and pivotal connection with the Earth, and its creatures.
